Adult: tape the page corners down so it stops sliding, and stay at the table while the crayon box is out. One subject per sitting — the page goes on the stack finished or not.

More of the mix: sun, boat, heart, cloud. Ages 4-6 add a second pass — **fill the shape, outline it, name the colors out loud.**

The card fold

A finished page turns into a card in two folds: fold the sheet in half so the subject sits on the front, then add a name inside.

Ages 4-6 do the fold themselves; a two-year-old folds it with you, hand over hand.

Adult: decide the address before the crayons come out — the fridge, a grandparent, the lunchbox. An adult stays at the table while the crayon box is out.
