Koala Coloring Pages

Eucalyptus pack · Ages 2-6

Eight koala shapes, two per band. The routine: pick two crayons, color the body first, ears second, nose last, background after — **one koala per sitting.**

The two-crayon moves, every sitting

- [ ] Pick two crayons
- [ ] Body first
- [ ] Ears second
- [ ] Nose last

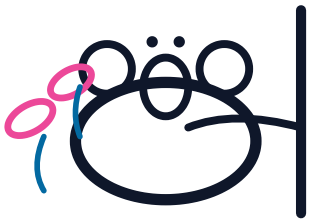

Adult: tape the page corners down so it stops sliding, and stay in the room while the crayon box is out. One koala per sitting — the page goes on the stack finished or not.

More to fill, same koalas. Ages 4-6 name the parts out loud as they go — **ears, nose, paws, branch, leaves.**

TWO KOALA FRIENDS

The wall branch

Tape a long strip of brown paper along the wall as the branch, then tape each finished koala onto it, one per week.

Ages 4-6 do the taping themselves; a two-year-old hands you the page and presses the corner down with you, hand over hand.

Adult: stay in the room while the crayon box is out, and keep the tape roll up high between sittings. An adult, close enough to act.
