Swap day — the first of the month, in five minutes

- [ ] Read the row together before the month starts
- [ ] Move each name one column to the right
- [ ] Keep one or two daily jobs, no more
- [ ] Run the monthly job with an adult in the room

Adult: if you trim this sheet down to fit the fridge door, the scissors run at the table with an adult, close enough to act, and the cut offcuts go straight in the bin. A job that has a hot tap, a spray bottle or a small part in it keeps an adult in the room.
