The wall line

A length of string and four clothespins hold a month of finished octopuses along one wall, low enough for a two-year-old to reach.

The line fills from the left; the oldest sheet goes in the folder when the line runs out of pins.

Adult: tape the page corners down, and stay in the room while the crayon box is out — an adult, close enough to act. Ages 2-3 color the body and stop; ages 4-6 add the waves, the suction cups and the seaweed.
