More to fill, same match. Ages 4-6 fill the trophy cup, the whistle cord and the number patch — **then the pages tape into one banner.**

The match-day banner

Tape finished pages edge to edge into one banner: the left edge of each page to the right edge of the one before it. Eight sheets tell one match, in the order the player chooses.

Ages 4-6 do the taping and pick the order; a two-year-old hands you the next sheet.

Adult: the number patch waits for a chosen player number — no digits printed on the sheet. An adult stays in the room while the crayon box is out and does the banner taping at the top edge.
