Space Coloring Pages

Blast-off pack · Ages 2-6

Eight pictures from space, four to a sheet. The routine: pick two crayons, color the biggest shape first, details second, background last — **one picture per sitting.**

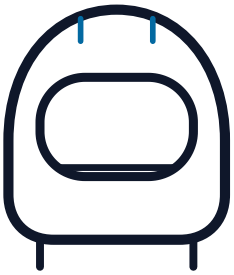

ROCKET

PLANET

STAR

ASTRONAUT HELMET

The two-crayon moves, every sitting

- [ ] Pick two crayons
- [ ] Biggest shape first
- [ ] Say the picture name
- [ ] Background last

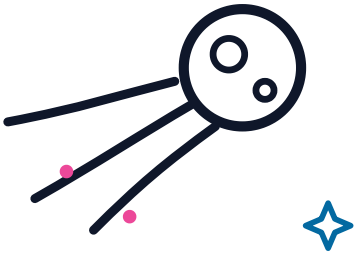

Adult: tape the page corners down so it stops sliding, and stay in the room while the crayon box is out — an adult, close enough to act. One picture per sitting; the page goes on the stack finished or not.

Space Coloring Pages

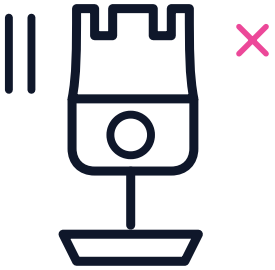

More to fill, same night sky. Ages 4-6 swap the second crayon after the first pass — **a crater, a tail, a dome, a saucer.**

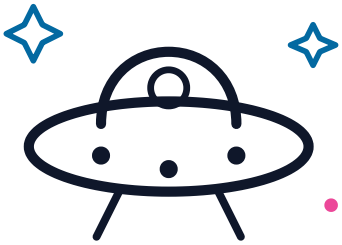

MOON

COMET

TELESCOPE

FLYING SAUCER

Color it, then run the launch

A finished picture has somewhere to go: the fridge door. Color the rocket at the table, then count the launch down together and send a soft toy across the room.

Ages 2-3 point while you name the picture; ages 4-6 name it themselves and pick the crayon they think fits.

Adult: stay in the room while the crayon box is out — an adult, close enough to act. One picture per sitting; the page goes on the stack finished or not.
